Precious Water

Did you know?

- South Africa has passed new legislation on its water usage.
- Approximately 12-14 million South Africans do not have access to safe drinking water and about 21 million South Africans do not have adequate sanitation.

What is the solution?

Activity

Fill in the empty boxes and note down examples of how water can be given to these people who do not have access using the following resources:

RAINFALL	DAMS	RIVERS
